WINDSOR OIL STOVE.

Absolute safety combined with other improvements, make the WINDSOR the only Oil Stove that any one valuing SAFETY and COMFORT will buy. The principle of the "Hydrostatic Column" is applied to the stove and explosion is impossible. As fast as oil is consumed water passes under it, so there is no vacuum, consequently no gas is generated to take fire.

BRIEFLETS.

--The weather is on its good behavior.
--Prayer-meetings at the churches to-night.
--The Milwaukee & St. Paul pay-car passed through to-day.

--Clark & Cressett are having the roof of their mill reshingled.

--William Garry, for his drunk, was this morning given a day in jail by Justice Pritchard.

--No one ever thinks of having a barber arrested for giving a fellow a clip on the head. It's the style.

--The sun now rises at 4:49 and sets at 7:33. A longer day's work than some other sons have.

--Mr. John C. Hamilton has gone to Milwaukee to enter the employ of the Northwestern Telegraph Company.

--Nothing has been heard yet from the Committee appointed by the last citizens' meeting, to look up the water-works question.

--John Vandervort, the city marshal of Jefferson, was in the city yesterday afternoon, looking after a stolen horse and buggy.

--The veterans will meet to-morrow evening at 8 o'clock, in the Council Chamber. Every man interested is expected to be present.

--Miss Baker, of Chicago, a well known contralto singer, is expected to be in Janesville, the first of next month, to visit friends here.

--The Shell case is being arranged for a decision by the Supreme Court. Yesterday the task commenced of getting the testimony in shape.

--There will be an adjourned meeting this evening of the Congregational church and society to decide concerning the proposed rebuilding of the chapel.

--Fred Prentice, of Kenosha, is in the city again for a few days. He says the rumor concerning his marriage was a horrible joke put up by some of the Kenosha boys.

--Green, the photographer, has changed about the pictures in his new show case at the entrance to his gallery on Milwaukee street. As you go by take a look at them. They show artistic skill.

--Kate Lynch, of Beloit, who has been so many days in jail here from time to time, was up again to-day charged with another drunk, but was allowed to go free on the promise that she would go once to her family.

--Some ingenious draftsman has executed an elegant drawing of an imaginary charge by the new militia company, and has presented it to the Captain. It will be framed and hung in a conspicuous place in the armory.

--According to present arrangements, the 15th of August is to be a great day in Janesville. The Temple of Honor delegates from all parts of America will parade, and Forepaugh's circus is booked for the same day. The streets will be lively.

--The argument in the water power case of A. Hyatt Smith vs. O. B. Ford, et al., was to have been called up in the Supreme Court at Madison this morning, but owing to the fact that the court wanted a vacation it was put over for three weeks.

--To-morrow night at Lappin's hall there will be a meeting of Greenback working-men. Mr. Stewart, of Waukesha, will give a free talk on the financial and labor questions, and all are invited to attend. Any queries will be answered by the speaker.

--To-morrow afternoon the Janesville Mutuals, formerly the Actives, will tackle the Chicago Clippers, the game to be on the Mutual grounds, and to commence at 3:30 o'clock sharp. The fee at the gate is only two-shillings, and carriages are allowed free.

--Constable Comstock went out on the trail of the fellows who robbed Dunn of \$98. He tracked them as far as Whitewater where they had slept, night before last, and found there that they had gone to Waukesha, but at the latter place no trace could be found of them, and the hunt has been given up as useless. The money has probably been mostly spent by this time.

--Captain Thomas Croft, of the Janesville Guards, received word from Madison to-day that the State only allows for the organization of 24 militia companies, and that 22 are already mustered in, leaving only two vacancies. The names of those joining the guards were accordingly hurriedly subscribed to the application to-day, and the captain will take the papers to Madison at once, in person.

--A Mount Zion farmer was in the city yesterday, and fell in company with two harvest hands whom he took out for a drive in his buggy. The trio got merrily foul, and smashed the buggy. The fact that only a hub and two or three spokes were left in one wheel did not seem to spoil their pleasure, and the party kept on riding with three wheels. They were finally locked up, and this morning allowed to go in peace.

--A dog became seasick yesterday in one of the ice cream saloons, and the keeper covered the marks of the illness with an empty candy box, until some customers should go out. An innocent attorney passing through the room, saw a glorious chance to kick the box, and boyishly hit it with his foot, in such a lively way as to cause a general scattering and spattering. He won't be in a hurry to renew his childhood tricks again.

--The second steam wagon, it being the one from Green Bay, called the Cole wagon, arrived last night about 6 o'clock. It was an even more ungainly affair than the Oshkosh wagon, and fully answered the description given of it in the Gazette, several days ago. The machine was scanned by a crowd of scornful lookers-on, who made it the subject of many a joke and many a sneer. The machine rolled on its way for Madison in spite of them.

--Mrs. Mack and Fred Dickinson are still stopping at Colley's. The woman has a good airy room by herself, and objects strongly to any one taking a look at her.

She therefore has few visitors. She has carefully inquired as to how Dickinson was situated and what kind of a room had been furnished him. As for Dickinson he seems to be greatly worried over his arrest, and yet at times brightens up while playing cards with some of his fellow-prisoners.

--Mr. J. A. Crandall and Mr. Charles L. Thomas, were in the city yesterday showing one of the new side-spring buggies manufactured by the Empire Cross Spring Company of Hornellsville, New York. It is decidedly unique, and seems to have many advantages. It is certainly one of the easiest buggies we ever rode in, and does away with the clumsy look which often characterizes side-spring buggies. If the invention continues to stand the practical tests given it for a year past, they propose to start a manufactory in Wisconsin.

--There has been before Justice Pritchard an interesting horse suit in which Jim Coulter and John McDonald are the contestants. Coulter claims that he was on a drunk, and while so boozed as to be unable to truly appreciate the force of a trade, he swapped horses with McDonald. He claims that the horse he gave McDonald was worth about \$90, and that the one he received was about 20 years old, blind and spavined and in fact not worth leading off, and that he got only \$12.50 for it. McDonald admits that the other man was drunk, but says he was not so drunk but that he knew what he was doing, and that he did not misrepresent his horse, nor did he seek the trade. Coulter now tries to replevin the horse, and of course McDonald objects. A decision will be reached to-morrow morning.

MAKING READY FOR THE FRAY.

The Organization of the Militia and the Election of Officers.

Those who have signed their names to the roll for the organization of a company of militia, met last evening at the call of R. Valentine. Dr. J. W. St. John was chosen temporary chairman, and G. F. Solbeck, Secretary. The company elected as permanent civil officers:

President--J. W. St. John.
Secretary--W. H. Doe.
Treasurer--J. H. Hunkins.

The following were elected as company officers:

Captain--T. T. Croft.

First Lieutenant--H. A. Smith.

Second Lieutenant--M. A. Newman.

Some discussion was indulged in as to the kind of uniform to be worn. It was finally decided to use at present the army cap and blouse, most of the members preferring not to expend any great sums, at least at present. The company has been most fortunate in the selection of its officers. They have all of them seen long service in the field, and have had their bravery in action recognized by promotion while in actual service. They are efficient drillmasters, and under their directions the company will doubtless become one of the best-drilled in the State.

They will be mustered in as State militia as early a date as practicable, and will secure their arms and be ready for any emergency. The organization will doubtless receive the hearty support and goodwill of the citizens generally.

A FOUR YEARS' STRETCH.

Frank Boland, the burglar captured at Clinton, had justice meted out to him this morning. The readers of the Gazette will doubtless remember the account given of his plunderings at Clinton, where he entered several residences, was afterwards arrested, broke from the grasp of the officers, and after a chase of two miles was recaptured. He pleaded guilty to two indictments, one for burglary, and the other for larceny from a dwelling house, and Judge Conger to-day sentenced him to two years in the penitentiary on each, making a four years' stretch in all. This afternoon Sheriff Colley started with him for Waupun, where he will engage in the shoe business, probably.

SPORTS AND PASTIMES.

At Cleveland yesterday in the 2:28 class Lucille won in 2:23, 2:25 1/2, 2:25. Sleepy George won the pacing race in 2:21 1/2, 2:18, 2:21 1/2.

At the Madison regatta yesterday the Noble of Oshkosh won the first prize. The course, eight miles and return, was made in 3 hours 2 minutes. The Grey Hawk of Madison took the second. In the second class race the Zephyr of Madison took the first prize, and the Gracie of Madison the second.

The Hornells defeated the Lowells yesterday by 10 to 4.

The Uticas defeated the Springfields yesterday 6 to 2.

Russell yesterday, near New York, accomplished the feat of walking under water eight miles in 4 hours 37 minutes on a \$500 wager.

ANOTHER NEW BUILDING.

Mr. O. B. Ford intends to commence soon the erection of a new building on the river side of the postoffice. It will have a frontage of 22 feet, a depth of forty feet, and will be two stories high. The first story will stand out five feet further toward the street than the postoffice front, and will be surrounded with show-windows, so that it will make almost an open front. The same stairs leading up over the postoffice will furnish a passage to the upper story, and down stairs a door will be placed where the window is now near the money order department, so as to make an entrance there. It will be probably used for a news room, and will be an attractive location.

THE WEATHER.

The thermometer this morning at 7 o'clock stood at 77 degrees above and at 2 o'clock at 90 degrees above. Cloudy and sultry. One year ago to-day at corresponding hours the thermometer stood at 65 and 83 degrees above.

The indications to-day are for the upper lake region, upper Mississippi and lower Missouri valleys, warmer, partly cloudy weather, with frequent rains, winds, mostly southerly, falling barometer falling in the north and west portions by rising barometer and colder northwest winds.

A WAYSIDE CHAT.

Seeing Ourselves as Others See Us--A Stranger's Ideas on Improving the City--Some Valuable Hints Frankly Given.

Our reporter chanced to meet an old gentleman the other day, who resides in a city upon the shores of Lake Erie, famed for its parks, groves and pleasant streets. The interview partook so much of the stereotyped form that we conclude to give it just as it occurred, a metropolitan journal.

Old Gent--You have a remarkably beautiful little city here.

R--Yes, we think so, and in time hope to see it more beautiful.

O. G.--Ah! yes; but I presume if you were to suggest certain obvious improvements you would be met here, as everywhere, with the reply that improvements in the line of taste "cost money." Now it is not strange that the cheapest improvements, and those which become the most valuable in the end, are the longest neglected? You take an Englishman or a German, and the first thing he will do is to beautify his home with trees, green grass and flowers; but this is the last thing a Yankee or an Irishman thinks of.

R--Well, I do not know but that is so. O. G.--Oh, you notice it, you will find it so any time. Again, you take a poor man, who owns a lot. As a rule he will let it lie vacant until he can get money enough to build a house, which can be completed in ninety days, and will perhaps cost him \$400; but trees which it would take ten years to grow, which would cost him \$1.50, and which at the end of ten years would be worth as much as the house besides giving health, cleanliness and comfort to his family, he generally neglects planting until a year or so after he has built the house. And then ten to one if he don't plant fruit trees right in the front yard, which will die in ten years, instead of forest trees which will grow more glorious for a century.

R--You seem to have observed and studied these things? O. G.--Oh! yes, we have been through it all in our city. The appearance and beauty of a street generally depends upon the action of two, three or four men who live upon it. Now take one of your streets in this "free business" you are far above the average--look at the irregular, jagged edges; here beautiful trees, and there none at all. Supposing you had two uniform rows of trees of good growth throughout the whole extent, and supposing you extended the curb ten or twelve feet further into the street, and put there a second row of trees, and cultivated green grass, under them all, when you get your own ordinance in force, as I understand you will, and remove your fences, what would you have? Why! instead of even the poorest of your citizens living on the edge of a pig pen, they would live in a park! (Here the old gentleman laughed heartily and continued.) And this reminds me of another thing: They all have it! All have to go through with it! comes as regular as cutting teeth or canker-rash in children.

R--What is that? O. G.--Why the different epochs of the growth of cities. We had it. Now didn't you ever notice that the first epoch in the growth of a city, or village was old boots, straw, ashes, and dead cats, in the street in front of the houses, and that the second was--magnificent?

R--(Joining in the laugh.) Well then I guess we must be in the second stage. O. G.--Oh, yes, yes; oh, yes, but you'll come through all right! Nothing dangerous, only it has to come. But is it not strange though, I saw something in your paper about bull-thistles, and the valor of some of your aldermen in exterminating them, but nothing about mayweed. Only think of it! Why, a good sturdy bull-thistle with its prickly leaves and pink blossoms, would be really ornamental on a lawn; but mayweed! Why, it never flourishes anywhere but in hog-pens, around vacant houses, or in neglected dooryards. It is the symbol of filth, desolation and decay! But then you will get rid of it in time, and when the grass comes in its place, your streets will shine like a house swept and garlanded. I know it is objected that such improvements cost money, but it is not necessarily so. Curbing, fountains, and all that, are expensive, but a little attention, without expense, will go a great ways, when you come to think of it. What reason is there why a village or city should not be kept as fresh and green as a country road?

[We were glad the old gentleman had not seen some of our country roads where the weeds grow close up to the hubs of passing wheels as high as the backs of the horses!]

Reporter--Take your Court House park: what splendid grounds and what a magnificent building you have there; but don't you see that a few circular walks would greatly improve it? Or even if you let a pair of horses with a scraper run away in it it would improve it. Anything to relieve it of that dead, flat surface. And the whole need not cost \$25. Of course it needs more than that, but better that than nothing.

And so the old gentleman went on to speak of the beauties of the city; its river, its sewerage facilities, its business prospects, and future growth; all constituting an intelligent, good natured, jolly interview, which we really enjoyed, as we trust our readers may.

Fascinating.

When a delightful odor surrounds the person, by the use of Dr. Price's exquisite Perfumes, then it is that the utmost fascinations of beauty come in play and captivate its admirers. Dr. Price's Perfumes are appreciated for their peculiar delicate fragrance.

ALBION.

Andrew and Jay Humphrey have sold their tobacco to a buyer by the name of Wolf; Andrew for 5 1/2 cents and Jay for 5 cents; to be delivered at Stoughton.

N. Barber, Senior, sold his tobacco to Henry Bardeen for 5 1/2 cents.

Spring wheat may be considered less than half a crop through this section. Winter wheat is good. Oats usually good. Prospect fair for an abundant corn crop.

Tobacco that has been well cultivated

is growing finely. Some pieces are very weedy.

A good many of our farmers have not finished their haying and a large amount of grain is ready to harvest. Work hands are in great demand and hard to get.

Rye is nearly all harvested and bids fair for a good yield.

Mrs. Mary Saunders, wife of Leroy Saunders, has for the past year and a half been battling with that unrelenting disease, consumption, until last Sunday morning, at half-past six, when death came to her relief.

On the Fourth she attended the picnic in Hall's grove. It was not thought that death was so severe, but the extremely hot weather hastened the progress of the disease. The funeral sermon was delivered by Rev. V. Hull, Monday, at 2 o'clock p.m., at the Seventh-Day Baptist church, from whence the remains were conveyed to Evergreen cemetery. A husband and large circle of friends are left to mourn her death.

Since the commencement of the extremely hot weather, Rev. T. E. Babcock has been on the decline. His recovery would seem almost to be an impossibility.

Mr. Reeves from Milton Junction has rented Miller and Gibson's blacksmith shop.

YERBA BUENA Bitters cures Biliousness. Jy25t

A CARD. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, Bible House New York City. Jy25t

YERBA BUENA Bitters cures Indigestion. Jy25t

An Undeniable Truth. You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,--your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. Jy25t

YERBA BUENA Bitters cures Sick Headache. Jy25t

New Business.

The undersigned, dealers in grain and merchandise, have taken and are fitting up in handsome style, the store-room, No. 7, Main street, next door to C. B. Conrad, Esq., for the purpose of doing a general business in grain and merchandise. We shall at all times, pay the highest market price for wheat and other grain, in cash, and no barter. And while we do not expect to do business merely for recreation or the benefit of our neighbors, we do intend to sell our goods as "cheap as the cheapest," and try to make it to the advantage of the community to give us a part of their patronage, at least. And as we are connected in business with Messrs. Hall, Davidson & Co., of Milwaukee, and Messrs. Williams, Miller & Co., of Chicago, we have facilities for buying grain and selling goods, that we are confident no other house in the city possesses. Our stock of goods will be opened in a few days, but in the meantime we are prepared to buy all the wheat that may be offered. Respectfully, Jy25t E. C. DAVIDSON & Co.

YERBA BUENA Bitters cures Constipation. Jy25t

Beyond the Reach of Human Skill.

Is the power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease; but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling-out of the hair is immediately checked, and a luxuriant and beautiful growth of young hair is secured. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist A. J. Robert's, Janesville, Wis., and test its merits. Jy25t

"Dobbin's" Electric Soap.

Having obtained the agency of this celebrated Soap for Janesville and vicinity, I append the opinion of some of our best people to its merits. I have washed with Dobbin's Electric Soap made by L. L. Cragin & Co., Philadelphia, Pennsylvania, and pronounce it the best soap I have ever used. The rapidity and ease with which it enables one to do one's washing is really surprising. Boiling the clothes is entirely unnecessary and no rubbing is needed. I would not be without it.

NELLIE KENNETH.

I have no hesitation in saying that no housekeeper should be without Dobbin's Electric Soap. I can heartily recommend it. It is a charm in the wash-bowl.

As a time, labor and money saving article, I take pleasure in recommending Dobbin's Electric Soap to my neighbors. It promises wonders and does all it promises. MARY YONKMAN.

I take pleasure in calling attention to the testimonials, as we have just made arrangements with the manufacturers in Philadelphia, so that we can supply the trade at the lowest Philadelphia price. GEORGE W. HAYES, Sole Agent.

DIED.

JAMIESON--In Johnstown, July 19th, LAURA, eldest daughter of John and Eveline Jamieson, aged 21 years, 6 months, and 24 days.
